

# Templemoor Infant & Nursery School

## Year 2 Home Links

Friday 21st June

Dear Parents and Carers,

### **Visit to Quarry Bank Mill**

The children had a wonderful time, at Quarry Bank Mill, this week; the children were superstars and we were very proud of them! They all came back with beaming smiles and full of enthusiasm. They were thoroughly engrossed in the workshops and learnt so much about how cotton fabric is made. During the habitat outdoor workshop, the children found many interesting creatures from ladybirds to frogs! Next week, the children will be writing a recount of their day. Please encourage your child to tell you as much as they can about their trip to Quarry bank Mill, and all the wonderful things that they learnt.

### **P.S.H.E.**

As part of our learning about safety in the outside world, the children have been learning about how to be safe when around water. There is a sheet in your child's book bag, which you can use, to help support your child to spot potential dangers. Why not encourage your child to design a poster reminding others of ways in which they can keep safe near water?

### **Visit to Moorlands**

As part of the children's transition, the Beetles and Ants visited Moorlands today. They all had a super time and enjoyed the activities, whilst becoming familiar with the school and staff.

### **Geography**

To celebrate the Euro's, we would like the children to research their favourite European country and write down some facts to share with the class.

### **P.E.**

Next week, the children will need to come in their P.E. kits on Monday, Tuesday and Thursday.

Kindest regards,

The Year 2 Team 😊
